Verana Health®

Qdata® nAMD (neovascular age-related macular degeneration) is an exclusive dataset with a detailed view of the patient journey, disease progression and anti-VEGF treatments.

Verana Health® delivers meaningful insights by ingesting, curating and analyzing real-world data from the American Academy of Ophthalmology IRIS® Registry (Intelligent Research in Sight) and linking it with other data sources such as claims and ophthalmic images.

✓ **Exclusive nAMD Insights**
Only found here

✓ **Timely View of Anti-VEGF Treatments**
Track usage and outcomes

✓ **Detailed Understanding of Disease Progression**
Including visual acuity and CST

Totals in Qdata nAMD:

1.4M+ De-identified patients with nAMD*	**1M+** De-identified patients with nAMD with anti-VEGF injections	**3.1** Average years of follow-up data

Defined as patients >=50 with >=1 ICD-10 code for nAMD (codes H35.32) from January 2016-July 2025, with a corresponding CPT or HCPCS code on the same date as the diagnosis.

Key Variables

Variable	Details	Estimated Coverage of nAMD Patients
Visual Acuity	Visual acuity (VA) measures how sharp your vision is at a distance. It is usually tested by reading an eye chart. VA is an outcome measure found in EHR semi-structured fields.	99%
CST	Central subfield thickness (CST) is the measurement of the thickness of the central part of the retina (also called the fovea), typically determined using optical coherence tomography (OCT) imaging. CST is found in OCT image data and EHR semi-structured fields.	25%

Treatment

Ask about **Qdata Anti-VEGF Market Tracker** that actively and accurately tracks real-world usage of anti-VEGF therapies in an intuitive dashboard for day-to-day business use.

Qdata. nAMD

Potential Applications:

Clinical Development

HEOR & Medical Affairs

Commercialization

Ways to Engage Us

Intuitive Dashboards   Custom Insights via Services   Direct Data Access

* Data current to **July** 2025. Data counts represented are subject to change.
Data counts for research purposes are dependent on project scope and feasibility.

About Verana Health
Verana Health® is revolutionizing patient care and clinical research by unlocking the potential of real-world data. Verana Health has an exclusive real-world data network of 90 million de-identified patients from more than 20,000 clinicians, stemming from its exclusive data partnerships with leading medical societies. Verana Health harnesses deep expertise, secure advanced technology, and direct access to exclusive, near real-time data sources to deliver actionable quality insights that help companies make sense of the data.
