

Qdata® BPH (Benign prostatic hyperplasia) is a real-world data set that offers a deeper understanding of disease progression, disease management, and comorbidities for patients with BPH.

Verana Health® powers urologic research using exclusive real-world data from the American Urological Association (AUA) Quality Registry (AQUA) and other sources, such as medical and pharmacy claims.

- ✓ **Exclusive Insights into the BPH Population**
Only found in the AQUA Registry
- ✓ **Detailed Understanding of Patient Characteristics**
Characterize disease severity, and stratify patients by key clinical attributes
- ✓ **Granular View of Disease Progression and Patient Outcomes**
Variables include IPSS*, PSA level and Gleason score for BPH patients who also have prostate cancer **In development*

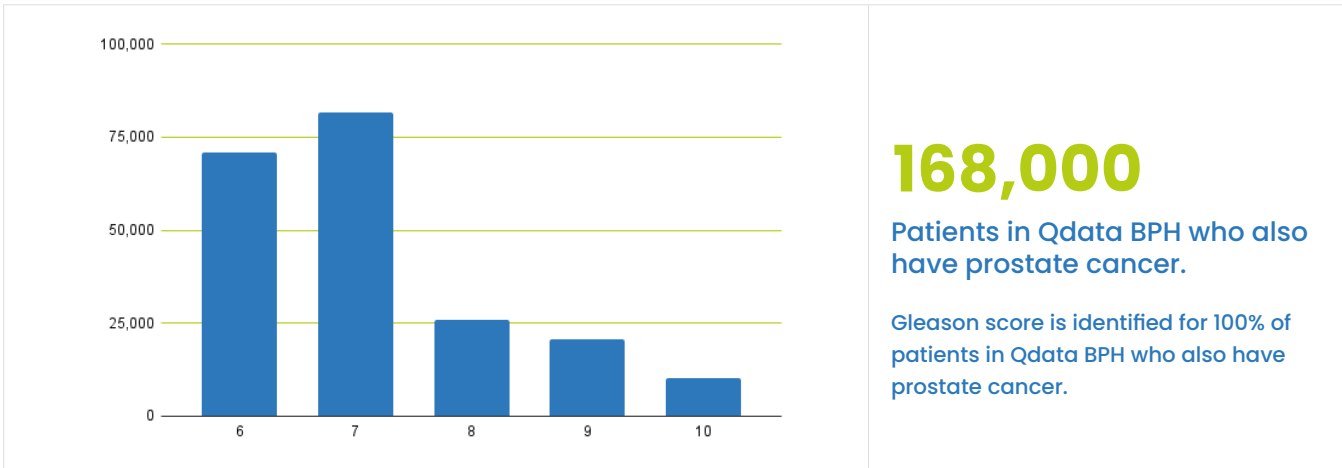

In AQUA Registry:

<h1>1.7M</h1> <p>De-identified Patients with BPH*</p>	<h1>4.2 Years</h1> <p>Median length of follow-up</p>
<small>*Defined by patients between January 2014 and January 2025 who are >= 18 yo at the first BPH diagnosis with the following BPH ICD codes: (600.01, 600.91, N40.1, N40.3) on 2 encounters and at least 2 valid patient notes and 1+ linked claim.</small>	

Key Variables

Variable	Details	Estimated Coverage of BPH Patients
PSA Level	Abnormal PSA levels can indicate a later stage of prostate cancer.	73%
<small>Other key variables for consideration: Prostate size, QoL score, Urocutff and Uroflow IPSS / AUASI*</small>		
<small>*In development</small>		

Patients by Gleason Score

168,000

Patients in Qdata BPH who also have prostate cancer.

Gleason score is identified for 100% of patients in Qdata BPH who also have prostate cancer.

Qdata BPH

Potential Applications:

Ways to Engage Us

*Data current to January 2025. Data counts represented are subject to change. Data counts for research purposes are dependent on project scope and feasibility.

About Verana Health

Verana Health® is revolutionizing patient care and clinical research by unlocking the potential of real-world data. Verana Health has an exclusive real-world data network of 90 million de-identified patients from more than 20,000 clinicians, stemming from its exclusive data partnerships with leading medical societies. Verana Health harnesses deep expertise, secure advanced technology, and direct access to exclusive, near real-time data sources to deliver actionable quality insights that help companies make sense of the data.
