

Delivering quality insights through quality real-world data to enhance evidence generation and accelerate clinical trials.

Verana Health® powers urologic research using exclusive real-world data from the American Urological Association (AUA) Quality Registry (AQUA) and other sources, such as medical and pharmacy claims. Verana Health’s high-quality Urology Qdata® and analytics services drive insights at every stage of the drug lifecycle.

Powered by a Urology-specific Patient Registry

American Urological Association

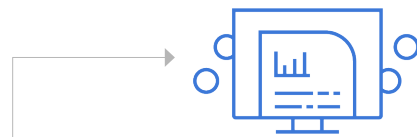

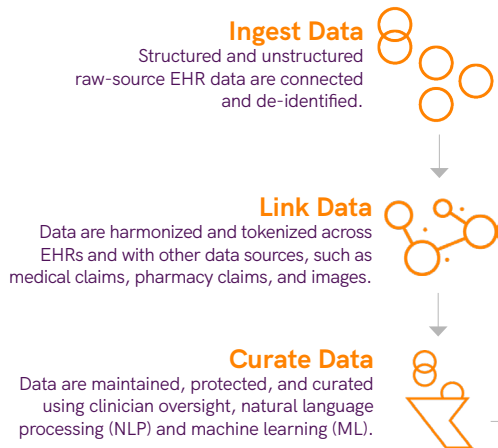

Verana Health’s partnership with the American Urological Association (AUA) enables the curation and analysis of data from the AUA’s Quality Registry (AQUA). This real-world data is heavily comprised of unstructured, de-identified data from clinician notes, which Verana Health transforms into usable, structured variables to generate insights only found here.
