

Quality Measures Dashboard

Access unparalleled insights into how your practice is performing against specialty specific quality measures, benchmark quality performance, and utilize your data for Merit-based Incentive Payment System (MIPS) requirements.

Verana Health's Quality Measures Dashboard enables members of the American Academy of Ophthalmology IRIS® Registry (Intelligent Research in Sight) to derive value from the data they contribute, thereby ensuring accurate data submission to the Centers for Medicare & Medicaid Services (CMS).

Have Confidence in Data Accuracy

Quality Measure Dashboards use VeraQ®, Verana Health's health data engine for ingesting, linking, and curating data, to process your EHR data on a regular cadence that maximizes the accuracy of your practice's quality measures and MIPS scores. The data is refreshed monthly to ensure the dashboard remains current, reliable, and a practical tool for your practice.

Identify Specific and Actionable Opportunities for Improvement

Track how your practice is performing on more than 50 unique measures, enabling you to pinpoint areas of improvement and areas of excellence in your practice. Specific helpful details include:

- Patient level information
- Location based data (for multi-location practices)
- Clinicians level performance data

// *Words cannot express my gratitude for the help, advice and patience I received throughout the 2024 performance year and especially during the submission session. Verana is the best possible vendor."*

-Ophthalmology Practice, OH

// *This is an excellent service provided to Ophthalmologists"*

-Ophthalmology Practice, AR

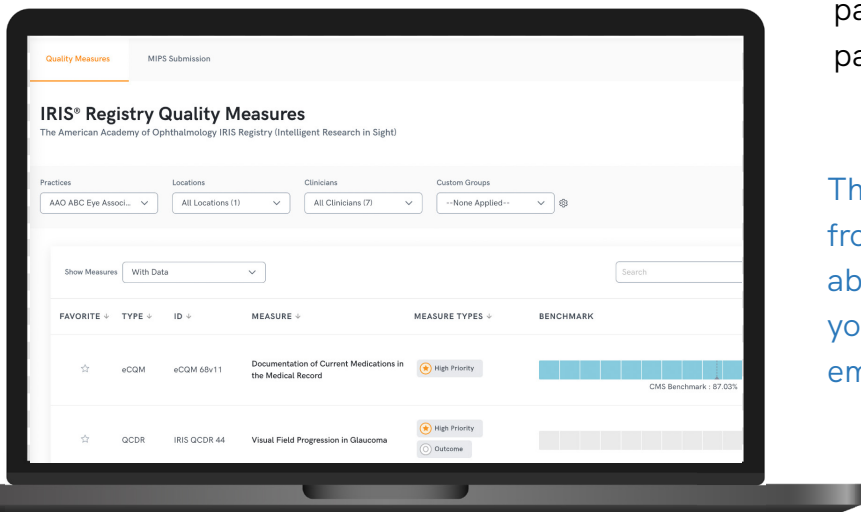

Benchmark Ongoing Quality Performance

Understand how your practice is performing from a quality perspective in comparison to your peers. Specific helpful details include:

- Benchmarking against other IRIS Registry practices
- Understanding of your performance in CMS Quality Payment Programs
- Specialty-specific measures

Maximize Your Incentive Payment Potential

If you are an independent ophthalmology practice, navigate your MIPS requirements and ensure accurate data submission to CMS to maximize your payment. Verana Health helps you stay current on changes to regulations and can help support your submission of selected measures.

MIPS Advisory Services

Confidently navigate your MIPS requirements with our MIPS Advisory Service to ensure accurate data and timely submission to CMS to maximize your incentive payment potential.

- **Expertise You Can Trust:** Verana Health supports 2,000+ IRIS Registry practices annually to submit their MIPS requirements.
- **Never Miss a Critical Deadline:** Reduce the risk of penalties through year-round guidance and data validation. Save time and resources with expert navigation and support tailored to your practice.
- **Submit with Confidence:** Maximize your MIPS score to receive the highest incentive payment while minimizing your risk of not passing a CMS audit.

There are three levels of support to choose from with our US-based team. Learn more about these support plans by contacting your practice experience manager or emailing irisdatalink@veranahealth.com.

About Verana Health

Verana Health® is revolutionizing patient care and clinical research by unlocking the potential of real-world data. Verana Health has an exclusive real-world data network of 90 million de-identified patients from more than 20,000 clinicians, stemming from its exclusive data partnerships with leading medical societies. Verana Health harnesses deep expertise, secure advanced technology, and direct access to exclusive, near real-time data sources to deliver actionable quality insights that help companies make sense of the data.
