Site Explorer

Leverage exclusive, expertly curated EHR data in an intuitive interface to make efficient, data-driven site selections.

Access Exclusive Clinically Rich Data

As the strategic data and analytics partner of the American Academy of Ophthalmology IRIS® Registry (Intelligent Research in Sight) and the American Urological Association (AUA) Quality (AQUA)® Registry, Verana Health offers exclusive access to real-world data from a network of clinicians.

Site Explorer facilitates your access to data:

- From 2,500 ophthalmology practices
- From 150 urology practices
- On 55+ million patients
- Patients active in the past 5 years and their historical data

Quickly Model Protocols

Build cohorts with a user-friendly interface to efficiently model study protocols and identify optimal sites based on inclusion and exclusion criteria.

Build a patient cohort in minutes with:

- No coding experience required
- Predefined codelists with common diseases and procedures in protocols
- Proprietary codes that pull the rich clinical notes in the EHR data into a structured format for easy searching

*"**37%** of sites under-enroll, and*

***11%** fail to enroll a single patient.*

***55%** of trials are terminated early due to poor enrollment."*

– Tufts Center for the Study of Drug Development

Reduce Recruitment Timelines

Pinpoint eligible patient populations and high-volume trial sites in minutes. Identify and connect with sites that have:

- The right mix of research experience
